

When it comes to the growing number of children who struggle to learn to read, we agree with Christopher Robin. They are a great deal braver, stronger, and smarter than their early school performance reflects, and all have capabilities and dreams waiting to be developed and realized.

With a student-teacher ratio of 3:1, each child has the opportunity for maximum growth and development.

The dedication of our volunteer teachers, support staff, camp directors, counselors, steering committee members, liaisons, and recruiters makes it possible for all funds to go directly into the camps.

Reading Camp is completely funded by the generous grants and donations we receive from our loyal supporters.

We stretch our imaginations and our personal efforts to ensure that each camp is a mountain of fun!

We believe all children need a relationship with a caring adult who knows their name, who reads to them, who holds their hand, who listens to them, who laughs with them, who believes in them, who won't let them down and who gives them hope.

Well-known children's authors such as George Ella Lyon and Nancy Kelly Allen are frequent visitors to Reading Camp, boosting enthusiasm and building confidence.

Each child leaves camp with a firm grasp of reading skills, renewed confidence in his abilities, and a generous supply of new books and materials for continued growth.

READING IS A
MOUNTAIN OF FUN!

and partnership in the efforts of
Reading Camp.

READING CAMP

*Helping children become
better readers*

**“You’re braver
than you believe,
and stronger than
you seem, and
smarter than you
think.”**

-- Christopher Robin to Pooh

Why Reading Camp?

The ability to read is essential to success in school and is the key to a future as contributing members of society.

It is Reading Camp’s goal to help children who are reluctant and struggling readers improve their literacy skills and become more confident students.

Our full scholarship program is offered to third and fourth grade students who are not reading at grade level, and are at risk of failing.

Public school teachers identify and recommend applicants, supplying test scores and school reports that help us assess their placement at camp.
